

Tanzlaboratorium, Kiev, Ukraine

Tanzlaboratorium was present at this 36th edition of INFANT with the most successful production based on the life and work of one of the most famous Ukrainian director: Les Kurbas. The performance is called **Kurbas. Reconstruction**. Even if the performance participated in 2008 at another international festival in the region [in Bucharest, Romania, in Underground Arad Fun], the organizers felt the need to present this work here in order to complete the image of INFANT as a festival that intends in completely show different works on the field of alternative and new theater.

On behalf of the performers, Olga Komisar expressed their gratitude to be present here in this edition of INFANT, also to have the possibility to meet another kind of audience, with different expectations, but also to see different work made by various theatre companies in the region.
